RECIPROCITY QUESTION.

A WASHINGTON CORRESPONDENT'S OPINIONS.

The Negotiations Not Likely to Be Successful—Reports From Guatemala Corrected—Libeller O'Brien's Case—Mrs. Cleveland Has a Daughter.

NEW YORK, Oct. 3.—The Herald's Washington correspondent says: The second postponement of the reciprocity negotiations with the commissioners of the Canadian Government is no surprise to those who were familiar with with the feelings of the President and Secretary Blaine last spring. The President and Secretary Blaine are in accord on the general proposition that reciprocity of the kind offered by the Conservative party of Canada is not desirable for the United States. As was stated in the Herald at the time of the visit of Sir Charles Tupper and his associates in the cabinet, Secretary Blaine is in favor of the absorption of Canada into the union, but he believes the way to obtain it is to pursue a waiting policy, rather than to irritate the loyalists by seeming to seek it. He is willing to see reciprocity tried as the means of cementing the union of the two, but he has always favored a reciprocity which covered nearly all classes of articles, or at least admitted our manufactures into Canada, rather than the one-sided reciprocity presented by the Conservatives. The Canadian elections last spring were watched here with keen interest because of the light they were to throw upon the feeling of the Canadian people. If the Liberals should have carried a majority of the seats in the Dominion Parliament, a reciprocity propostion would probably have been submitted by them which the President and Secretary Blaine would have been willing to accept. The victory of the Conservatives, however, was not entirely unexpected, and occasioned no great regret here, because it was believed that in the long run public opinion would ripen quite as fast in Canada under the narrow policy of Sir John Macdonald as under a broader policy, which might be too far in advance of public sentiment.

TORONTO, Oct. 3.—The Mail's Washington correspondent says that since adjournment of Congress enquiries and investigations by a select committee of the Senate, appointed under a resolution of that body, have been going on for the purpose of establishing a closer bond of commercial relationship between the United States and Canada, and that it is understood a mass of evidence has been laid before the forthcoming conference favoring an American plan of Reciprocity.

NEW WESTMINSTER.

McLean Wins the Canoe Race—The Lacrosse Match Going on.

NEW WESTMINSTER, Oct. 3.—McLean won the canoe race this morning by the third of a canoe length. It was a splendid race all through. At the turning buoy Coots, the half-breed, fouled Mac, who was kneeling on the bottom of his slim outrigged skiff. The shock caused Mac to break through the bottom of his boat, but he paddled gamely on. The boats kept neck and neck up the home course to the C.P.N. dock, when Mac by a terrific spurt gained a lead of about three lengths. Coots responded near the finishing line and brought his canoe up nearly level to Mac's. The latter made a supreme effort and landed safe. Mac says in another hundred yards he would have sunk, his boat being half full of water as it was. Hundreds witnessed the race, which was undoubtedly the most exciting seen here for years. Mac made a good deal on side bets.

The town is full of Vancouver visitors who are over to see the lacrosse match, which starts at 2.30 this afternoon.

FIRE AT MISSION.

One Man Burned to Death—Heavy Loss in Property.

MISSION, B.C., Oct. 3.—Fire started this morning about 1 o'clock in the Matsqui hotel, destroying it and Horne's new block adjoining. There was great difficulty in saving Mershon & Timberlake's bank building, which caught fire several times. One man, named Louis Cromer, was burned to death. The rest of the occupants of the hotel had great difficulty in escaping. The loss is about $35,000; insurance not known.

An Insane Bridegroom.

NEW YORK, Oct. 2.—A special from Atlanta, Ga., to the World, says: A stylish-looking bridal couple registered at the Kimball House last night as R. W. Kildow and wife. They were assigned to the bridal chamber. An electric alarm upon the annunciator this morning called Hotel Clerk Porter to the room. The door was opened by Mr. Kildow, who inquired: "Do you believe in the Lord Jesus Christ?" "I do," most humbly answered the clerk. "Enter thou then into the abode," said Kildow, and he quickly turned the key upon the clerk, who found himself in the room with a raving lunatic on one side, while over in the corner crouched the terrified and weeping bride. The man's antics were curious, but he was soon quieted and placed under arrest, while some ladies came to the relief of the bride. The unfortunate man was so violent that he had to be taken down to the calaboose and put in a cell. He is a well-known Presbyterian preacher of West Virginia. He had married Miss McNaughton, of Richville, and started on his bridal trip. The bride had spent the night in dodging the movements of a madman, not knowing what to do. Later in the day the Presbyterian clergymen of the city interested themselves in the case. The doctors declare that the aberration is only temporary.

News from Chili.

SAN DIEGO, Oct. 2.—The British ship West Indian, from Iquique and Valparaiso for San Francisco, has stopped in harbor for coal and provisions. Her captain confirms the report of ill feeling and abuse of Americans since the defeat of Balmaceda. His vessel was at Iquique when news of the fall of the dictator was received, and he says that a terrific celebration immediately began. Carousing, dancing and all manner of excesses were indulged in night and day for a week. The feeling against Americans is especially bitter and outspoken at Valparaiso and Iquique, where the first move made was to oust all Americans from social and political clubs. In Valparaiso the Congressionalists formed a large procession, with the Chilian flag in the van and the British flag in the rear, amid cries of "God Save the Queen" and "Hurrah for England." England is on top as far as commercial interests are concerned, says the captain, and will remain so for a great many years to come, but the trade of the country is greatly overdone just now, and no one will make any great profit out of it.

For Libeling the Prince.

MONTREAL, Oct. 1.—R. N. O'Brien, a newspaper correspondent, who has been on trial the last five days on the charge of libeling Prince George of Wales by means of a "fake" dispatch representing that the Prince had gone out on a debauch while in Montreal, was found guilty by a jury to-night with a recommendation of mercy. Counsel for prosecution then announced that as public justice had been vindicated the Crown would agree to suspension of sentence, and the court suspended sentence. In the course of the trial R. D. McGibbon, vice-president of the citizens' committee appointed to entertain the Prince, testified that on the night when the article complained of stated that the Prince had gone out to do the town and had been assaulted, Prince George and witness had spent the evening at the theatre and then returned to the hotel, when the Prince retired for the night. McGibbon produced letters from the Prince approving of the action against O'Brien and giving an emphatic denial of the statement contained in the articles.

The Tourists Paid Best.

LONDON, Oct. 3.—A Treves dispatch says that the city is fast being emptied of holy coat pilgrims, and the roads in the country for long distances are thronged with them, thousands preferring to go home on foot. The exhibition has netted a large sum of money, but the English and other tourists are said to have been more profitable for the church than the pilgrims, most of whom lived in poor fashion, and seemed to have but little money.

Afraid to Break with China.

LONDON, Oct. 3.—The English government is said to be reluctant, now that Russia has refused to lead a naval demonstration against China, the question being whether English interests would not be more injured than helped by England giving Russia a chance to gain a footing in the good will of the Pekin authorities. The prospects now are that there may be no demonstration.

LAST DAY OF THE FAIR.

PREPARATIONS FOR A GRAND WIND-UP.

Fireworks for this Evening—An Interesting Entomological Collection—Prize-Winners in Fruit, Fine Arts and Various Other Classes.

Friday was perhaps the greatest day of Victoria's great exhibition. Although the weather was threatening, and a slight mist fell the most of the day, the attendance was not only unabated but increased. The interest was sustained, but to-day the last has been reached, the fruit is failing, the plants are drooping and green stuffs generally have lost their freshness with the exception of the band, Pendray's soap column and other imperishable articles. It is not possible to approximate the attendance yesterday, and "immense crowds" does not express it. The exhibition itself, the sports and the races formed the attraction, particularly the latter.

It is interesting to note amongst the exhibits in the natural history and mineralogy section a collection of native lepidoptera, with common and technical names attached and classified, and being part of 12 months collecting in and around this city by W. H. Danby. Amongst the 41 species of diurnals or butterflies represented are some rare specimens, notably a melanic form of *V. Antiopa* (Camberwell beauty) bred by Mr. W. H. Danby from the egg. The collection goes to prove conclusively what a rich field Vancouver Island is to the entomologist, and reflects credit on the Natural History Society of British Columbia, of which W.H. Danby is a member, and who is awarded first prize for his exhibit.

The fireworks last evening were an immense magnet, but the rain damped the spirits of the people, and must have had a similar effect upon the explosives, for the display was not up to that given by the same firm on the Queen's birthday celebrations. Still, it was all very interesting, the motto "Peace," with floral and other decorations being particularly good; while an acrobatic figure created no small amusement. It is understood, though, that the great display is reserved for this evening. At the half-mile foot race to-day there were several entries, the winner being H. Dalby, 2 minutes, J. Braden second.

This evening the Mainland exhibits will be removed after the buildings close, and by Monday Victoria's greatest fair will be a thing of the past.

Guatemala Is Quiet.

NEW YORK, Oct. 3.—The Herald's City of Mexico special says: The reported revolution in Guatemala is thought to be part of a deliberate plot to injure all Spanish-American securities and produce an agitation in Guatemala for the purpose of depreciating the value of property. It is supposed that the agitators desire to purchase coffee lands. Dispatches were sent to this city from Guatemala, stating that the Republic was in a state of revolution, and declaring that the Government was endeavoring to suppress facts by a severe censorship of press and telegraph. General Alatorre, Mexican Minister to Guatemala, who has just arrived here, declares most emphatically that when he left Guatemala on September 5th absolute domestic peace prevailed, and relations with Salvador were quite harmonious. He scouts the idea of revolution, and says that notwithstanding all that has been said in the United States and Mexico to the contrary, the press of Guatemala since the commencement of the present presidential campaign enjoys absolute liberty. He says that the imprisonment of several editors in Guatemala was in no sense political, and was not by order of the Government. General Alatorre considers the outlook in Central America more peaceful than it has been for years. Considerable indignation is manifested here at the action of the schemers in Guatemala, who did not hesitate to employ the names of members of the diplomatic corps, and who went to the expense of sending a man here to circulate false reports.

Affairs in Samoa.

SAN FRANCISCO, Oct. 2.—The steamer Monowai arrived from Sydney, Auckland and Honolulu last night. When the steamer reached Tutuila, Sept. 17, the U. S. cruiser Iroquois was there, en route to Pago Pago. Among the passengers on the Monowai was Capt. G. Loholland, of the brig Douglas, wrecked among the Gilbert Islands. The trouble at Samoa between the rival kings, Mataafa and Malietoa, is by no means at an end. Mataafa is residing at Malie, and assumes a degree of authority above that accorded to his rank as high chief. King Malietoa for some reason seemed loth to check the arrogance of his popular rival, for the reason, it is supposed, that he knows a serious quarrel will follow. At Manoa recently the followers of several chiefs who are ardent supporters of Mataafa caused a disturbance at a gathering to elect a native governor. They tried to enlist the sympathies of the Manoa natives in Mataafa's cause, but the natives are loyal to Malietoa, and rejected the advances made. An agitation followed, during which several houses and villages were destroyed. Malietoa's government demanded that the offenders be taken to Apia for trial, and the U. S. warship captured six of the Mataafa agitators, who were sentenced to six months' imprisonment. The situation at Apia is considered unsettled.

SEAL HUNTER'S STORY.

THE CRUISE OF THE PENELOPE WELL DESCRIBED.

Hunting Seal Under Difficulties—How the Matter Looks to a Seal Hunter—Heavy Weather—Visit From a United States Cutter—Other Incidents.

Written by a hunter on the Penelope.]

We left Alatak Bay, Alaska, on the 29th of June for the waters of Behring Sea, and on hearing it reported that the Imperial Government in concurrence with Uncle Sam to put a stop to the capture af fur seal in the above waters until May, 1892, we tried to make 172 pass in the Aleutian chain of islands in hopes of dodging the cutters which might be patrolling around Ounimak Pass and other well known entrances of sealing vessels. However, on the evening of July 3rd, our hopes were shattered by falling in with unfavorable winds, so like Paul Jones of revolutionary lore, we determined on trying to run the gauntlet through Ounimak, but thick and boisterous weather prevailing we didn't make out the entrance until the morning of the 6th, which happened clear, with light easterly wind. On the morning of the 7th, being some 40 miles on the wrong side of the fence, we had a call from an unwelcome visitor in the person of the first lieutenant of the U.S. revenue cutter R. Rush, who paid us his respects in company with his subordinate, the second lieutenant and a boat's crew. He enquired in a gentlemanly and suave manner what luck, etc., and seemed incredulous on hearing our salt bins were empty. However, he was bound to impress his importance upon us by reading and delivering a copy of the proclamation from the above powers, warning such as we to leave the waters forthwith, and not to attempt to capture or molest any fur-bearing animals, on penalty of our losing our liberty, and the owners their vessel. He also, much against the wishes of our captain, determined to write his autograph on the ship's register, and whilst the old man protested, he accomplished his purpose by the use of those mild persuasions, "might is right," and "every man shall do his duty." After toasting us in some Johnston street "lime juice," he mildly bade us adieu.

A council was convened in our cabin to re-shape the course of the Penelope. After discussing past events, and a liberal supply of the above mentioned courageous stuff, the vote was cast for Copper Island—if "Andy" had been more generous in his measure the Kurile Isles might have been won,—so we squared our yards for the westward.

Having a favorable slant, we raised the snow streaked sides of Behring Isle, in the jurisdiction of Johnny the Russ on the 14th of July, and lowered away the boats on the 15th. Here we hunted with varied success until noon of the 9th of September, when, the weather looking bad, we made sail for home. Seals are not very plentiful around Copper Island, and a divine intervention of the elements protects these innocent amphibious creatures more effectively than a fleet of cutters could. We had only some four hunting days during our stay in those waters, and hearing that the Hamilton Lewis, of San Francisco, had got a tow line from the Russians, every strange sail became a gunboat in our imagination, which made it hunting under difficulties at the best of it. However, we managed to capture 691 seal and two otter before we left.

On the 15th of August we spoke the D. Webster, of San Francisco, Captain D. McLean, about 60 miles to the southward of Behring Island, with all well and lots of skins. During our passage from Qunanak Pass to the demarcation line of the United States and Russia, we passed numerous sleeping seal, but being forbidden to lower boats until the captain gave us liberty, we had to pass these legal tenders for $3 without molesting them, and no one but a seal hunter can tell our feelings on such occasions. Verily, it was like courting the wrath of the fickle goddess. The passage home was very pleasant, considering the season. We met with a slight accident, losing our foretopmast on September 13th, by light wind and heavy sea, which slightly retarded our progress. On the morning of the 28th, when somewhere off Cape Cook, we fell in with a young but vigorous hurricane, which at times tried what the Penelope's timbers were made of. How it did howl. We blew away two try-sails and came near losing the fore-mast. The water was lifted in the air and tossed clear over the jumper stay without touching the decks. The cook, fearing some damage to the "Beanery," unshipped two lengths of stove pipe, which eased the boat considerably. It la ted 30 hours, and we weathered it, but whether through the efficacy of prayers—as some were in a kneeling posture during the time, or through the staunchness of the Penelope's hull, I cannot say. We sighted Vancouver Island on the 30th, the passage occupying about 21 days, which considering the bountiful harvest of healthy barnacles which cover her bottom is not so bad. We logged about 2,937 miles on our homeward passage.

Our catch for the season is 1330 seal, two otter and one whale, which if not very large is rich in variety. We saw a fur seal off the Race Rocks whilst towing behind the tug Sea Lion on the afternoon of the 2nd inst, and he appeared quite tame, which augurs well if claimed by Canada, as the seal that are claimed by Uncle Sam are first-class "steeple chasers," through dodging the clubs of the Commercial Company's employees on the Pribyloff Islands and the propellers of revenue cutters.

"Just as Good."

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is Peculiar to Itself.

San Francisco Hebrews.

SAN FRANCISCO, Oct. 2.—The new building of the Concordia Club, the leading Hebrew institution of the city, was thrown open for inspection last night and was visited by fully 3000 people, who were hospitably entertained in the luxurious quarters. The building has been erected and furnished at a cost of about a half million of dollars, and is beyond doubt the handsomest and most elegantly equipped club house in San Francisco.

A QUARTER OF A CENTURY AGO

There settled in Douglas county, Oregon, near what is now Buxter City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

EUROPEAN MATTERS.

The Plot Against the Austrian Emperor—German Troubles in Africa.

LONDON, Oct. 2.—The German artillery manœuvres which have been in progress at Yuterbork, about 20 miles south of Berlin, have been attended by Count Scheffer, chief of the general staff, and 24 staff officers, the regiments of artillery, guards, and four other regiments. A fort built on the shooting range eight years ago was made use of, and other works were erected for a test of the guns. A large number of heavy fortress guns were tried for the first time, the results being so satisfactory as to surprise the most experienced artillery officers. A feature of the occasion was the use of strong farm horses to draw cannon about the field, instead of the transport horses used last year, and which were found too weak even for the lighter guns then employed. The artillery manœuvres are considered by the Kaiser as hardly less important than those of the cavalry, and an elaborate report of the proceedings is being prepared for imperial information.

GERMAN MILITARY SERVICE.

The proposition to reduce the term of full military service to two years, has been received with favor by a portion of the German press, and is known to be favorably regarded by the Kaiser. The very vastness and expense of the German military system, however, makes it difficult, if not impossible, to effect the change, which would be a great relief to the people. Some high military authorities say that it would impair the military vigor of the Empire, while others have a contrary opinion.

RUSSIA'S UNHEEDED THREAT.

No importance is attached by the British Foreign Office to Russia's threat of hostility in Asia unless England consents to come to terms with Russia in Europe. A retired official of the Foreign Office said to-day that substantially the same menace was held out by Emperor Nicholas before the Crimean war to induce England to wink at an onslaught by Russia on Turkey, but the British Government refused either to be coerced or cajoled, and Russia was beaten into the war that followed. The ex-official said he believed Russia's object in making the threat was to clear the deck for a descent on Constantinople by way of the Balkans, and with the co-operation of the Russian Black Sea fleet.

GERMAN EAST AFRICA.

The German Government has under serious consideration the question of abolishing the civil governorship in German East Africa and again placing the colony under the absolute control of a military guard. Under the present arrangement Baron von Soden has command of the whole military force of the colony, and the actual military chief can make no movement without his consent and direction. To this fact is attributed the recent disasters to the German arms in the interior, which compare strikingly with the success of the German troops when Major Wissman as military chief had undisputed control. The trouble with the natives appears to be largely due to the measures of taxation adopted to make the colony as far as possible self-supporting. The latest advices from Africa represent the situation as very grave, and with a tendency to grow worse. The Arab slave-dealers have great influence with the natives, and are doing all they can to have the latter break out in a general revolt. It is believed, however, they will not succeed. Meantime the Government is forwarding reinforcements to German East Africa with a view of crushing the rebels against German authority and extending protection to the mission stations.

THE PLOT AGAINST FRANCIS JOSEPH.

A Vienna despatch says that the impression is gaining ground that Russian enmity to Austria and Germany has something to do with the attempt to assassinate the Kaiser Francis Joseph. While it is not believed that the Czar or any other European prince could wink at the attempted assassination of another ruler, yet the Russian secret service has, as it is well known, taken a leading part in such conspiracies, as witness the Panitza plot, which, though detected in time, was aimed at the life of Prince Ferdinand of Bulgaria. It has been thought that the lesson given in the execution of Ferdinand's would-be assassin would deter men from such conspiracies thereafter, but there is reason to assume that Russian intrigue is also at the bottom of the plan to destroy the ruler of the Austro-Hungarian Empire. The authorities are determined to probe the conspiracy to the bottom, and will have no scruples in employing any method of getting at the truth.

What They Say?

In popularity increasing. In reliability the standard. In merit the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

A Great Convenience.

From this date Jackson & Mylius, jewellers, 76 Government street, will send for your clock, and return it when properly adjusted. Call, or drop in a card, which will have our prompt attention. Watches and jewelery repaired. All work guaranteed.

AUCTION

Wednesday, October 7th

AT 11 A.M.

ESQUIMALT DISTRICT.

VALUABLE LANDS AT

Langford Plains and Neighborhood

I have been instructed to sell by auction at my salesrooms, Fort and Langley streets,

Section 99—Containing 114 acres, more or less. This section forms part of the celebrated Langford Plains property, well known as a favorite spot for public picnics. A large part of this section is open and dry land, as level as a billiard table; the scenery is very pretty, the grounds having scattering oak trees through it, fringed with a comparatively light growth of fir and other trees in the background. This section partially fronts on the south side of a beautiful sheet of water known as Florence Lake. The Goldstream wagon road runs through the southern portion of this lot, and the E. & N. railway runs within 25 chains of the southern boundary, thus giving easy and cheap access to it.

Section 113—Containing 143 acres, more or less, adjoining and north of Section 99. This section takes in nearly the whole of Florence Lake. There is a large quantity of good limestone on a knoll at the northern boundary of this section.

These two properties are certainly the making of the finest recreation grounds in the neighborhood of Victoria City. The land in Section 99, in its native state, has no equal for a race track, cricket, baseball grounds and other sports; and the beautiful surrounding scenery is unsurpassed; the advantages of Florence Lake for boating and camping are splendid, and hunters are in the heart of a fine game country. These two sections will be sold together.

Section 112 A—Containing 68 acres, more or less.

Sections 118 and 85—Containing 141 acres, more or less. The Goldstream wagon road runs through the lots. These lots have a frontage on Langford Lake, and will be divided into four lots of about 35 acres each, and each lot will have a frontage on the lake. This property commences at the east end of the lake.

Lot 67—Containing 100 acres.

Lot 68—Containing 100 acres.

Both these lots are at the junction of the Sooke and Metchosin roads.

Terms of Sale—Half cash, balance in twelve months at seven per cent.

THE SECTION B SCANDAL.

Tory members of Parliament and Tory newspapers have been chuckling over the refusal of the House of Commons, at the command of the Government, to grant a committee to investigate the charges preferred by Mr. Lister against Postmaster General Haggart, in connection with Section B. By and by it may appear to them that there is less cause for jubilation than they imagined, for they will find a good many inclined to believe that fear was the mainspring of the Government's action. There was too great a scandal locked up in the Section B affair, and the Government chose to keep it hidden even at the expense of creating a suspicion in the public mind. The more the history of the famous contract is looked into the greater will the suspicion grow. The contract was first let to a Nova Scotian firm, Fraser, Grant and Pitblado, but was practically taken over by a company made up of Alex. Manning, J. J. Macdonald, Peter McLaren and John Shields. The Postmaster-General was Mr. McLaren's agent, legal adviser and confidential friend, and Mr. Lister charged that he had also a personal interest in the contract. Sir John Thompson and other Tory members contended that the offence charged was too old to be investigated, but the very conclusive answer to this is that if Mr. Haggart was guilty as charged he is not now fit to be a member of the Ministry.

The trouble with the Government was that they feared the outcome of the investigation would bring disgrace on more than Mr. Haggart. It will be remembered that while the work was in progress the resident engineer, Mr. Jennings, the same who was recently city engineer in Toronto, was removed at the request of the contractors. His measurements did not suit them, and Sir Charles set him to work somewhere else. When the section was taken over by the Government and given into the hands of the company, the contractors made a claim for loss of profits, based on various grounds. The matter was submitted to arbitration, evidence was taken with closed doors, and the arbitrators made an award of $395,000 in favor of the contractors. When the item for the payment of this award came up in the House of Commons it was resisted by the Opposition, Mr. Blake pointing out that Sir Charles Tupper had previously stated that there was nothing due the contractors, that the amount was excessive, and that the Government had not availed itself of its right of appeal. Sir Charles made prmises of all sorts that the Government would protect the public interest, and on the strength of these the item was allowed to pass. Next session it was found that the money had been paid over, and that Tupper had decided the matter himself. It is further worthy of note that the counsel for the contractors were Macdonald & Tupper, of Winnipeg—the sons of their fathers. It was said at the time that their counsel fee was $25,000. The Globe, in commenting on the Haggart matter, shows very clearly that it was not consideration for Mr. Haggart alone that caused the Government to burke Mr. Lister's motion. It says:—

Whatever Tory lawyers may say, every decent Tory layman must feel that if Haggart was to all intents and purposes a contractor whilst a member of the House, if he knew that bribery money was being paid out of the contracting firm's funds for political ends, and if, as Mr. Lister's motion suggests, he swore falsely about his relations to the firm, he is assuredly not fit to be a Minister of the Crown. The general feeling outside of the House was in favor of a searching examination into Section B history. Parliament has just probed public contracts quite as old, if not older. The alarm created in the Tory ranks by the motion is comprehensible enough; but an administration honestly determined to cleanse the stables would not have listened to a demand for smothering the facts. * * * The Tory members from Ontario, including Mr. Dalton McCarthy, were afraid of the far-reaching consequences of an exhumation of Section B and its true inwardness; and it was really from them that the opposition to the enquiry emanated. There is reason to believe that the process adopted by Sir Hector, Mick, Nick and Murphy in the Quebec works was followed on Section B. The contractors were called on to contribute large sums to elections and other political purposes. But care was taken that the books of the firm should exhibit no trace of the serpent. The boodle was hidden in items in the expense account. Some years ago Jay Gould on being examined touching certain transactions of the Erie Railway, then under his control, stated that money paid to politicians was charged in the ledgers to "India rubber account." Not long since a street railway company in Chicago admitted that bribes forthcoming from its coffers had been entered as payment for "hay burnt on the prairie." The Section B people were more careful than this. They had no vouchers, but each partner "kept tab" of his own outlay in behalf of the Old Man and British connection, and the arbitrators for the firm, who sat with closed doors, took nothing but oral testimony on this point and were discreet party men—Hon. Frank Smith, Mr. W. B. Scarth and the late Hon. Alex. Morris—fixed the matter up by "lumping," without asking too many questions. Indeed the thing was done so deftly that Mr. Scarth and Mr. Smith have probably forgotten all about this branch of the case and are half inclined to think that no boodling at all was done. But done it was, and lots of it. Just how the firm was recouped we do not know, but the *modus operandi* resembled that in vogue at Quebec and Esquimalt. A Government indebted to contractors for subscriptions to the fishery fund can easily find ways and means of repaying them with usurious interest. In all such cases, that of the Red Parlor included, the money slipped into the voter's palm comes in the last analysis out of his own pockets. In this respect a Tory administration resembles the Ethiopian who (travellers say) cuts his ration out of the ox that carries him.

It is not likely that the Government will permit any investigation into Section B if it can help it. The day is coming, however, when this Government will be no longer in power, and when there will be an opportunity to lay bare the boodling operations connected with that and other C.P.R. contracts. The Onderdonk section, for instance, will furnish revelations even more shocking than those of Section B. It will also be in order some day to investigate Sir Charles Tupper's relations with the Canadian Pacific Company since its formation, and particularly as to the manner in which he obtained his stock in said company. Altogether there are yet many shady transactions of the Tory regime to be looked into.

EDITORIAL NOTES.

Before the Public Accounts Committee Hon. Mr. Bowell volunteered a statement regarding his knowledge early in the year of irregularities in the printing bureau. He received his information from Mr. Barber, paper manufacturer, who, however, declined to bring it to Mr. Chapleau's attention lest it should spoil his chances for further orders. Mr. Bowell then spoke to the late Premier, who said he would see Mr. Chapleau. The Secretary of State, in reply to the Premier, said there was nothing in it, and held an investigation. The Premier also informed Mr. Bowell that he proposed to hold a departmental investigation into the Printing Bureau. It has been most conclusively proved that there was "something in it," and the unavoidable inference therefore is that Mr. Chapleau had a guilty knowledge of the crooked transactions.

A LIBEL ON AUSTRALIA.

TO THE EDITOR,—The description of "Social Life in Australia," which appeared in the Daily Colonist on the 30th September, would give anyone the idea that Australia was now a veritable hell upon earth and not one good thing in it. I hope to be able to relieve the feelings of all who may have read this by stating that from 1874 to 1889, I resided in Australia, both in Sydney and Melbourne, and have had a thorough experience of colonial life, and I most emphatically contradict the statements made and denounce them as utterly devoid of truth and a scurrilous slander upon one of the most beautiful countries of the globe. I am inclined to think it emanated from the same pen that attempted to defame British Columbia several weeks back, the writer afterwards admitting that he had only gone on hearsay.

With Melbourne the same as all large cities, there are some rough characters to be found—"larrikins," as they are called, but as to street rioting, I never saw any and have always found the city conducted in a very orderly way. For instance, at the Melbourne Cup time, when 200,000 or 300,000 persons are present to witness the racing, a more law-abiding crowd it would be impossible to find anywhere.

All the children are well educated, and are very smart and apt and as in all such countries they mature earlier and are certainly a little more precocious than their European cousins. The same thing exists on this Pacific coast.

The tastes of the Australian people are as much refined as in any other part of the world. It is stated that opera bouffe is a safe draw. Of course it is, but it is overlooked that a high class grand opera company is never absent from the colonies, and Shakesperian performances are always a big success there, over everything. I never met any murderously inclined people in Australia, nor have I ever been in danger of being shot by an Australian "staring like a wild beast ready to spring."

It is to be hoped that no credence will be attached to such a malicious and libellous attack, which is evidently the miserable overflow of some disappointed crank who was not a success in the sunny south. ANGLO-AUSTRALIAN.

CRICKET.

LORD HAWKE'S TEAM BEATEN.

PHILADELPHIA, Sept. 28.—The cricket match between Lord Hawke's eleven and the team made up of the cricketers from various first-class Philadelphia teams, which began on Friday last, ended to-day with a victory for Philadelphia. The Englishmen, who started their second innings Saturday, making 84 runs for a loss of two wickets, finished to-day, making 171 runs, a grand total of 439 runs. The Philadelphias began their second innings needing 182 runs to win. These they secured with the loss of two wickets, their last run being made three minutes before the time fixed for closing. The outcome was something of a surprise, as the opinion was general that a fourth day would be necessary for the finish of the match, and the match arranged with Baltimore had been therefore postponed. The Englishmen kept up their fielding, their plays being equal to the best cricket ever seen in this country. They were unfortunate at the bat, however, several of their players going out on easy chances. The fielding of Philadelphia was an improvement over their first day's work, although there were individual cases of weakness. In attempting to stop a hard hit ball Capt. Brokie, of the Philadelphias, had his hand split badly. H. Middleton was substituted and played well.

The attendance was about 7,500. The excitement as the game neared the end was intense. Every play that added to the Philadelphias' score was loudly cheered, and as George Patterson, the young American champion, scored the winning run, the crowd broke over the field, and manifested its delight in various ways. Many surrounded Lord Hawke, and shaking hands with him, congratulated him upon the good showing made by his men. A return match will be played Thursday, Friday and Saturday of this week. On Thursday night a complimentary ball under the auspices of well-known society leaders will be given the visitors.

Solemn Facts for Every Canadian Home.

Let it be remembered that though we, as a nation, are free from epidemics and pestilences which ravage other lands, we have in almost every home of our Dominion some form of sickness and disease. The homes of our fair young land are now blighted with nervousness, nervous debility, headaches, sleeplessness, moroseness, morbidness, dyspepsia, indigestion, neuralgia and rheumatism. All these serious troubles are, without doubt, the result of weakened and disorganized nervous systems, which rapidly develop into more serious and fatal maladies when allowed to run on unchecked. Amongst the most dreaded of these maladies may be mentioned paralysis, paresis and insanity.

Our public and private institutions and lunatic asylums furnish us with thousands of sad examples of unfortunate mortals who were the victims of nervousness, sleeplessness, moroseness and morbidness.

We appeal directly to every father, mother, brother and sister in Canada to do their duty in this matter. It rests entirely with the individual and family as to whether these diseases must decrease or increase—whether we shall be a nation sound in mind and body, or weak in intellect and bodily strength.

Clergymen, physicians and thousands of others are already doing a noble work in our midst by recommending that valuable nerve and brain food known as Paine's Celery Compound. It is a remedy guaranteed to cure when all other known remedies fail. It affords a surer protection from the ravages of disease than anything else known to the medical practitioner; and its cost brings it within the reach of all classes. It is truly nature's greatest remedy for the weak, broken down and nervous, and fully meets the wants of every man, woman and child.

Could Scarcely See.

Mrs. John Martin, of Montague Bridge, P.E.I., writes: "I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

The sudden changes liable at this season result in cold in head, followed by catarrh and perhaps consumption and death if not speedily treated. Nasal Balm almost instantly relieves cold in head, and never fails to cure catarrh in its worst form. It has cured thousands of others, it will cure you. Sold by all dealers or sent by mail on receipt of price (50c. or $1 a bottle). G. T. Fulford & Co., Brockville, Ont.

The Liberal Federation.

LONDON, Oct. 3.—A Newcastle despatch says: The Liberal leaders are disappointed with Mr. Gladstone's speech. They think that he gave too much time to Irish home rule and too little to English affairs, and that he did not place himself in line with the programme so far adopted by the Federation. Even his threat against the House of Lords was qualified by the statement that it was only considered as meaning anything in the event of the Lords rejecting Irish home rule. The rank and file of the party are not willing to have home rule put in front of all other questions. They say that is exactly what the Tories want, and it will split the Liberal party. The fact is noted that Gladstone was seldom cheered while in the Irish part of his address.

Teachers' Salaries.

The fact that the teachers have not yet been paid for September, shows that the so-called Minister of Education had an eye to business when he caused the word "monthly" to be struck out of the school law. The teachers are now at the mercy of the whim of the Education Department, and the Acting Minister of Finance.

What Visitors Say.

Chief Gardner Kellogg, of the Seattle fire department, has returned home from Victoria, where he had been attending the meeting and tournament of the Northwestern Volunteer Firemen's Association. He says the meeting was a success in every way and that the visiting firemen received royal treatment at the hands of their Victoria brethren.—Seattle Telegraph.

A Failure.

Auction sale, Wednesday, Oct. 7th, 11 a.m. Private sale every day at new store, Pierre block, Douglas street, near City Hall. *

The Victoria Market.

Victoria City Market will be thrown open in about six weeks. The carpenters are finishing up their work and the painters are doing the same. The longest job to be completed is the laying of the asphalt floor, which will be commenced on Monday. The stalls are being cleaned up, some of them being now ready. The building is well arranged and is well spoken of by those who have seen it. For a large public meeting it would be just the thing. The skylight, made of obscure glass, is the best in the Province.

Watching Them Closely.

The provincial police are not giving pickpockets and sneak thieves much chance to ply their trade at the race track and agricultural building. Sergt. Langley is out there day and night with a good squad of men watching for any of these gentry who might try to work. Close watch is also kept on the street cars to see that those who ride on them are not victimized. A couple of professional thieves who were known by Sergt. Langley were warned to leave the places where crowds frequent, and have prudently done so.

Leaves the Fourth Estate.

Mr. W. J. McDowell, who for some years past has filled the position of city and telegraph editor of The Colonist, resigns his desk to-night, and will take a clerkship in the Attorney-General's department. Mr. McDowell has formed many friendships in Victoria, his long connection with the press having made him well known. All will be pleased to hear of his appointment to a more lucrative place. He will be followed by the best wishes of all. The press has lost an able and tireless worker, and the Government has secured a good servant. In the future "Mac" will not be annoyed by the never ceasing cry of "copy," or troubled by the erratic freaks of the intelligent compositor.

A Handsome Trophy.

Perhaps the handsomest prize given during the late tournament was the gold medal given by the Toronto Rubber Company to the championship winners. This medal was slightly late in arriving, but reached the chief's hands about 15 minutes after it had been won by the Nanaimo boys. It is a very massive medal, with bar and firemen's emblems, with a medallion below engraved with the name of the donors. The company's agent, Mr. E. H. Port, who is now in the city, says his firm is always willing to do all it can to help on a firemen's tournament. If they give to every one a prize like that sent to Victoria, the sum total of the cost must be considerable. But Victoria deserves it.

To be Transformed.

Mr. James Wilson, Superintendent of the C.P.R. telegraph lines, who is in the city, will leave on Monday morning on board the steamer Douglas for Bonilla Point. His object is to instal the telegraphic instruments and take over the present telephone line to Bonilla point. It will be transformed into a telegraph line and the C. P. R. will have the superintendence of it for the Government. There will be five stations on it between Bonilla Point and Victoria, viz., at the point, one between there and San Juan, one at San Juan, Carmanah and Cape Beale. When the line is put in order it will be of great convenience to the citizens. As steamers pass they will be reported to the office here and thus save a lot of unnecessary waiting

A Marine Artist.

Harry Brown, a boat steerer on the sealer Penelope, is an artist of no mean order, and while away on a cruise, he fills in his spare time in painting pictures of scenes that he is most familiar with. He has during the last cruise turned out some very creditable canvases. One, which represents the schooner Penelope being chased by the revenue cutter, is of special interest, and gives a very graphic idea of the business. Several other scenes have also been painted, the whole making quite an art gallery. Mr. Brown also made a very fancy inkstand out of a pearl clam shell and a large barnacle, the former being the base, and the latter the ink reservoir. A neatly painted scene from the hills of Scotland ornaments the shell, the whole making a very beautiful and useful article.

Innes' Famous Band.

Mr. C. W. Bayer, manager of Innes' world-famous combined band, which is now entertaining the visitors to the Tacoma Exposition, arrived from the Sound this morning. He came over to arrange for dates for the appearance of the band in this city. They play for the last time at Tacoma on the 11th, and they will be here for the 12th and 13th. The band is composed of the Municipal band of New York and the Thirteenth regiment band of Brooklyn. The Tacoma papers speak highly of the band's performances in that city.

Victorians Should Go.

Next Saturday is British Columbia day at the Tacoma Exposition, and no effort should be spared by Victorians to make the representation of this city a large one. The trip will be a cheap one, and will give everybody a chance to go, and the opportunity should be taken advantage of. Outside of the fact that the exposition will be a sight well worth seeing, it might be remembered that the residents of the Sound cities are always ready to make Victoria the objective point when anything of interest is on. Intercourse between the citizens of neighboring cities is a good thing for business, and should be encouraged. The Tacoma folks will give a warm welcome to Victorians, and a good time is in store for those who go.

NEWS FROM ALBERNI.

The Steamer Maude Brings Up a Budget of Items.

The C.P.N. Co.'s steamer Maude, Captain Barry, came into port at half-past 9 o'clock last night, she being from Alberni, where she took a load of freight last week.

She brought up Mr. Mullet and family from the west coast city, and a large party of white and Chinese miners from the Stadacona mines.

Capt. Barry says that last Monday's gale was a very heavy one, and that owing to the high sea he could not take the Maude into Port San Juan on the up trip.

The San Juan Fishing Company are getting a lot of fish, but bait is rather scarce on account of the river being flooded with fresh water. Dog and cod fish are very plentiful.

The Maude took up quite a lot of machinery for the new paper mills which are to start at Alberni. A gang of men are now busily employed on the dam which will conserve the water to be used for power and other purposes in the mills. The men and work give Alberni quite a lively appearance.

The weather has been very good lately and crops have turned out well. The settlers hope the new mill will open up a better era of business.

THE TELEPHONE DISABLED.

Crossed Wires Cause a Conflagration—Circuits Consumed.

About ten o'clock last evening the night watch at the central telephone station was alarmed by the blaze and crackle of fire in the cupola where all the wires of the system are massed, and where the fuse boards are arranged.

An attempt to get the fire hall by telephone was futile, and one of the attendants rushed up to the Deluge engine house and gave the alarm. The firemen responded very promptly, and under the direction of the chief a couple of chemical extinguishers were got up to the blazing mass, when the fire was soon under control, perhaps three minutes after the first alarm. The heavy current, however, was sufficient to burn off the insulation of the hundreds of wires, thus rendering the whole system non-workable. A gang of electricians were at once put at work, and under the direction of Mr. McMicking the damage promises to be repaired by Monday.

The fire was caused by one of the telephone wires becoming crossed with a live electric wire. The street car people state that no indications of a cross appeared on their wires. It was fortunate that the firemen did not get a stream of water on the blaze, or the loss would have been very severe. As it is, outside of the burnt insulation, the damage is slight. In cities where thunder storms occur an accident such as this would have been protected by the lightning protectors, but such precautions are not deemed necessary here.

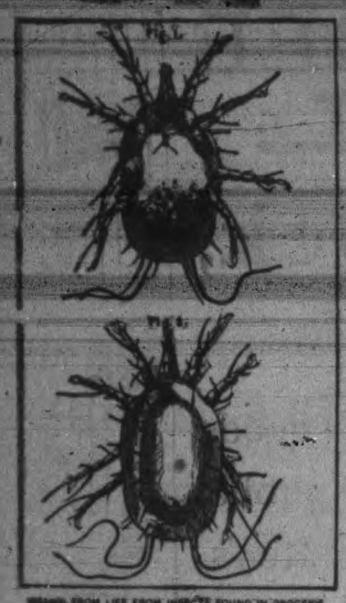
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari" found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

CHILI AND THE STATES.

The Irritation Dying Out—It Was Hot While it Lasted.

NEW YORK, Oct. 2.—A special to the Herald from Valparaiso says: I have at last found a plausible explanation of the origin of the trouble between the Santiago officials and Minister Egan. On what I consider excellent authority, I am told that the authorities some days since came to the belief that the refugees in the American legation were hatching a conspiracy against the Junta. Of course there was not the least foundation for this conviction, but in consequence of it, the orders were given that led to much annoyance to the Minister. All the persons arrested were subjected to a searching for letters, it being thought that their contents would throw light on the alleged conspiracy. When these letters were not discovered, the prisoners were discharged. Mr. Egan is determined not to surrender anyone who has sought refuge of the American legation, unless a conduct into neutral territory is guaranteed by the Junta, or until the Minister receives an order from the State Department to give up the persons. Commodore Schley, of the cruiser Baltimore, returned here today from Santiago, whither he had gone to confer with Minister Egan on the state of affairs. He reports that all is quiet in Santiago. It is probable that the Junta has received a hint from its representative at Washington that it has been acting of late in rather too hasty a manner. I am fully convinced, as I cabled you yesterday, that the members of the Provisional Government are desirous of cultivating the friendship of the United States, and of avoiding any trouble with the United States or any other foreign nation. I am just in receipt of word by telephone from Santiago to the effect that everything is peaceable there, and that visitors to the American legation are no longer molested.

A Tale of Blood.

NEW YORK, Oct. 2.—A special to the Recorder, from Liverpool, Ky., says: Margaret Evans, the mother-in-law of Thos. Carr, has made a startling confession relating to the murder of her son-in-law, his wife and sister-in-law, whose bodies were discovered a few days ago in Carr's farm house, near Vanseburgh. Mrs. Evans herself lay unconscious upon a bed from the effects of a serious wound. According to the first story Carr murdered his wife with a corn knife, and then attacked his mother-in-law. Thinking that he had killed them both, he then took his own life. Various circumstances, however, tended to disprove this story, and Mrs. Evans has at last told a more truthful account of the murder. She says a fight occurred in the house because Rosa Burrows, Carr's sister-in-law, accused her own sister of having been intimate with Lee White. This accusation angered Mrs. Carr, who snatched a gun that stood in a corner of the room and attempted to shoot Rosa. The latter grasped an axe to defend herself. Carr then took a hand in the fight, and Mrs. Evans, his mother-in-law, determined to take sides with her eldest daughter, Rosa Burrows. A terrific combat followed. Carr, with his corn knife, hacked off one of Rosa's arms, and then cut her throat. Mrs. Evans made a lunge at Carr's wife, inflicting a mortal wound, from which she died shortly after. Carr himself was badly wounded, and as he dropped to the floor from sheer exhaustion through loss of blood, his mother-in-law struck him with an axe. That ended the fight.

Jay Gould's Health.

NEW YORK, Oct. 2.—The Evening Sun's Tarrytown special says: "Jay Gould went out driving this morning, and was said to be looking well. His physician took holidays and went to New York." Howard Gould and Edward Gould both said to-day that their father was as well as he had been for a long time. Edward Gould also denied that his father had broken down at the Missouri Pacific meeting. The Evening Post states on authority of a director, who was present at the meeting, that the story of Gould's collapse is true.

The Right Bullet Told.

FREMONT, Ohio, Oct. 3.—Joseph Hobe, a German, from Toledo, made an attempt to murder his wife, who had left him and was living in this city. He then shot himself through the head with a revolver and died almost instantly. Mrs. Hobe is not seriously injured, the bullet cutting through the forefinger of her right hand.

NANAIMO NEWS.

NANAIMO, Oct. 2.—Mr. J. Mahrer will submit the plans for the extension of the opera house to the Board of Trade at their next meeting, for the purpose of ascertaining what commendation they will offer towards floating a joint stock company to run the establishment as a first-class hotel. The capital required will be $100,000 in shares of $100 each, payable in 12 months. The plans show a very handsome building with a frontage of over 200 feet. Already $20,000 has been subscribed and should the Board fail to assist in the project he will carry it through unaided. Mr. Mahrer asks $70,000 for the present buildings and it will cost $30,000 to make the necessary alterations.

DENIES THE REPORT.

Captain Bennett called on a correspondent of the TIMES yesterday and requested him to deny the report that had appeared in the Victoria papers re the grounding of his vessel on the rocks. The jovial captain stated: "We were very near to it, but thanks to our anchors, which held firmly, we were enabled to keep clear of them. We had a couple of sails spoilt on our way up, but no other damage was done. The untruthful report may cause me a great deal of inconvenience, not to mention the unpleasantness connected with such an affair." The vessel will therefore have no need to be beached, and will take her turn under the shutes for a cargo of Northfield coal.

The report published in the TIMES came from a reliable source. A party that ought to know says two tugs went to Capt. Bennett's assistance.

FOREIGN SHIPMENTS.

The shipments of coal to foreign ports show a decline from all the mines, which is due to the non-arrival of shipping. The present month, however, promises to be large for the New V. C. Co., as they have about 20,000 tons of shipping now in the harbor. The shipments were:—

AS A TOKEN OF ESTEEM.

The residents of South Gabriola Island presented Mr. B. J. Douglas the other evening with a beautiful gold watch, accompanied by an address, in token of the esteem in which they held him. Mr. Douglas has held the position of school teacher for some time past, and during that time has endeared, not only his pupils but also the residents, to him. He has now resigned his position and the residents felt they could not allow him to leave their midst without showing him how much they appreciated his untiring efforts to educate their children. Mr. Douglas returned a suitable and touching reply to the presentation.

LITTLE HAPPENINGS.

Mr. W. Keddy has purchased the I. X. L. livery stables, which he intends for his own use. The former proprietors will build commodious stables on the adjoining property.

John Hawkins and Miss Graham, of Comox, were united in marriage last evening by the Rev. J. B. Good.

Some individual approached all the grocers in this city and has requested them not to purchase Chinese sugar, which they have promised not to do.

A St. Louis Professor's Estimate.

In the Age of Steel, published at St. Louis, appears an interview with Prof. S. Waterhouse, of Washington University, that city, in which he describes his tour through the Northwest, British Columbia and the Pacific States. The Professor speaks admiringly of the scenery along the C.P.R., summing up thus: "For 400 miles there is an uninterrupted succession of such natural sublimities as the traveler can nowhere else in the world observe from a car window." Asked "what are the prospects of Vancouver and Victoria?" the Professor said: "In '86, every house but one in Vancouver was burned. Now the city has a population of about 11,000. The powerful influence of the Canadian Pacific Railroad will not allow its western terminus to fail. Victoria has a population of 16,000. Its resources of coal and foreign commerce seem to ensure a rapid growth."

No Revolution.

NEW YORK, Oct. 2.—Mr. Jacob Baiz, Consul-General for Guatemala, has just received the following advices from Guatemala, under date October 1st: "Absolute peace reigns in Guatemala. Deny all rumors of revolution, which are false. (Signed) Barillas."

Purify The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is heredited and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla to purify the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. In its preparation, its medicinal merit, and the wonderful cures it accomplishes Hood's Sarsaparilla is **Peculiar to Itself.** Thousands testify to its success, and the best advertising Hood's Sarsaparilla receives is the hearty endorsement of its army of friends. Every testimonial we publish, and every statement we make on behalf of Hood's Sarsaparilla may be relied upon as strictly true in every respect.

Your Blood

If you need a good blood purifier or building up medicine, be sure to take Hood's Sarsaparilla. Further information and statements of cures sent free to all who address us as below.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes). | THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam (Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

YESTERDAY AT THE TRACK.

The Second Day Witnesses Some Very Good Racing—Result of Events.

Yesterday at the race track was in the main interesting, with the exception of the length of time it took to start several events. There is a limit to the public patience as everything else, and a starter should bear this in mind. The limit is supposed to be reached when it takes over 20 minutes to start four horses in a half mile race, and it is palpable to all that the thing could be done in five minutes. A firm course of conduct would remedy this state of affairs in less time than it takes to tell it. Then again the track while under racing rules is not an exhibition ground for private vehicles of distinguished visitors, even of Vancouver's distinguished mayor, nor is it a Hyde Park resort. Anyone should have sporting knowledge enough to understand this.

The progamme yesterday was short, but well fought out. As announced last evening, Belle Watts, under Harry Stone's capable hand, took the final heat in the free-for-all trotting, but she did it in a way to command admiration for her driver, but for her own pluck, considering all that had been done to prevent her winning. Her time, too, was was regulated—2.30½.

RUNNING HALF-MILE AND REPEAT.

This was the first item on the set programme, and the entries were:—Caven & Co.'s Grey Eagle, white jacket, red sash and cap; W. J. Garrison's Lancer, orange and blue; James Irvine's Joe Wynne, blue and white; Linton Bros.' Limey Long, blue.

The usual programme of false starts had to be given before the flag was dropped; when it was, the horses got away in a line which doubled into a bunch a few yards further on. Lancer, ridden by his owner, W. J. Garrison, most unexpectedly forging ahead, with Joe Wynne a very close neighbor, but Lancer, pushed for all he was worth, stretched out and put his nose under the wire in 52½.

Lancer's victory was either chance, purpose or good luck, for it was confined to the first heat. In the second heat Grey Eagle, the favorite, quietly stole out of a bunch with that horse that is nearly always there, Joe Wynne, and ran with him to the finish, the other horses taking care of the rear. Grey Eagle walked home in 52 1-5.

In the third heat, Limey Long and Joe Wynne were withdrawn, and the race rested between Grey Eagle and Lancer. They started prettily, and raced well from start to finish, but while it was punishment for Lancer, Grey Eagle took matters with comparative ease. They were neck and neck to the home stretch, when the grey horse just lengthened his body a little, moved away from his companion, and finished at the wire a close winner, amid tremendous excitement. Time, 55.

TROTTING RACE. PURSE $150. 2.50 CLASS.

I. W. Anderson's Lady Mac, white; W. Brown's Foundry Boy, black; E. Adamson's Joe W. (formerly Charles S.), purple and white; Captain Terhune's Johnny, grey; Dr. F. W. Hall's Canadian Boy, blue.

Previous to starting this event, the judges announced that Canadian Boy had a record on this track of 2:44½, and asked the other drivers if any objection existed against him. There was, and he was accordingly withdrawn. The horses got away, and Johnny drew out of the crowd. He thought he had the lead to himself, but Lady Mac offered to keep him company. She wanted to do it too quickly, the consequence being that she went up in the air. Johnny kept the lead for honest trotting, but Lady Mac, settling down again quickly, was his close neighbor, staying with him till the last round. Johnny broke, gave place to Lady Mac who came sailing in in 2:42.

This victory gave her the advantage of having the pole in the second heat, in which her chief opponent was Johnny. Her position was obtained early in the first round, and although Johnny made a plucky spurt towards the finish, he couldn't do anything to oust her. She took the heat in 2:41.

In the third heat Harry Stone took over the lines that guided Johnny, and sent the little horse out of a bunch like a rocket shortly after the start, passing Lady Mac, who threw her fore feet up, and lost terribly. Johnny showed the way easily on the first round, Harry quietly smoking a cigar and waiting for all comers. The second round was something like the first. Time, 43 1-5.

Johnny led the procession in an uninteresting 4th heat. Time, 45.

The race now stood with two heats each to the credit of Johnny and Lady Mac. It was getting dark when the decisive heat came on, and it was then found that Lady Mac had changed drivers. Hickey took the reins. Johnny driven by Harry Stone, had the pole, and kept that position till well in the second round. Hickey was pushing Lady Mac close to the back of Stone's sulkey without ever attempting to pass. He was evidently trying to rattle Harry, but there was no rattle in that body. Harry kept ahead, the little horse travelling gamely, and the mare pounding away behind. Hickey at the corner thought he would force ahead on the inside, contrary to all rules, but he misjudged both man and distance, the result being that he took the wheel of Harry Stone's sulkey with him, leaving Harry on the ground. There was a sudden stop. The judges reserved their decision till to-day when they very properly gave the race to Johnny. (Harry Stone, driver.)

ONE MILE AND REPEAT—PURSE $250.

L. W. Mann's b.s. Cyclone, red and white; J. A. McNeill's b.s. Ito, blue; T. Behan's b.s. Mystery, green jacket and cap; E. McAbee's b.m. Malina, white jacket, red sash and cap.

Malina and Mystery alone started in this race, Malina winning prettily two straight heats in 51 and 53.

A protest has been entered against Malina, on the grounds that a sufficient number of horses did not start in the race against Mystery yesterday.

From Him That Hath, Etc.

The Sunday school needed money and Mr. Smith, the superintendent, had a new way of getting it.

He proposed giving each boy half a dollar; at the end of a month the principal, together with what it earned, was to be returned to him.

The scheme was good, but it didn't work quite as Mr. Smith had anticipated.

The fourth Sunday found the superintendent ready to audit the profit and loss accounts—and he commenced with Johnnie's class.

"How have you done, Johnnie?"

"My half dollar has earned another one" said Johnnie, with the air of one having an option on a halo.

"Good," said the superintendent; "not only is Johnnie a good boy in helping the school, but he shows business talent. Who can tell but that we may have a budding Wanamaker among us. Johnnie, you have done well."

"And now, Thomas, how much has your half dollor earned?"

"Lost it," said Thomas.

"What? Not only failed to earn anything, but actually lost," said Mr. Smith. "How was that?"

"I matched with Johnnie," was the reply, "and he won."—Life.
